Coming into hospital can be a worrying experience but the God who created you is listening.

Heavenly Father, thank you that you are with me now. Quieten my mind and give me peace. I trust you for everything that the future holds. Nothing can separate me from your love. Bless me and all who are with me in the hospital. I ask this in name of the Lord Jesus Christ. Amen

Why not ask one of the hospital chaplains to come and pray with you a nurse can help you arrange this.

Coming into hospital can be a worrying experience but the God who created you is listening.
